It is important that your grant is used effectively and based on school need. The [Education Inspection Framework](#) makes clear there will be a focus on **‘whether leaders and those responsible for governors all understand their respective roles and perform these in a way that enhances the effectiveness of the school’**.

Under the [Quality of Education](#) Ofsted inspectors consider:

**Intent** - Curriculum design, coverage and appropriateness

**Implementation** - Curriculum delivery, Teaching (pedagogy) and Assessment

**Impact** - Attainment and progress

To assist schools with common transferable language this template has been developed to utilise the same three headings which should make your plans easily transferable between working documents.

Schools must use the funding to make **additional and sustainable** improvements to the quality of Physical Education, School Sport and Physical Activity (PESSPA) they offer. This means that you should use the Primary PE and sport premium to:

- Develop or add to the PESSPA activities that your school already offer
- Build capacity and capability within the school to ensure that improvements made now will benefit pupils joining the school in future years
- The Primary PE and sport premium should not be used to fund capital spend projects; the school's budget should fund these.

Please visit [gov.uk](https://www.gov.uk) for the revised DfE guidance including the 5 key indicators across which schools should demonstrate an improvement. This document will help you to review your provision and to report your spend. DfE encourages schools to use this template as an effective way of meeting the reporting requirements of the Primary PE and Sport Premium.

We recommend you start by reflecting on the impact of current provision and reviewing the previous spend.

Schools are required to [publish details](#) of how they spend this funding, including any under-spend from 2021/2022, as well as on the impact it has on pupils' PE and sport participation and attainment. **All funding must be spent by 31st July 2023.**

We recommend regularly updating the table and publishing it on your website throughout the year. This evidences your ongoing self-evaluation of how you are using the funding to secure maximum, sustainable impact. Final copy must be posted on your website by the end of the academic year and no later than the 31st July 2023. To see an example of how to complete the table please click [HERE](#).

Richmond Academy  
Academic Year 2022-23

## Rationale

At Richmond Academy we aim to build on children's natural enthusiasm for physical exploration by providing stimulating, purposeful and challenging experiences through games, dance, gymnastics, swimming, athletics, the daily mile and outdoor and adventurous activities. We aim for as many pupils as possible to engage in activities that promote their physical development including being involved in competitive sports.

We know from evidence that physically active children are not only healthier but do better academically and in life; they are far more likely to be active as adults. The first ten years of life provide children with a blueprint for their adult lives and is the time when they develop the critical fundamental movement skills that act as foundations and building blocks for future activity.

## Summary of Proposed activity for 2022-23

- Improve participation in daily physical activity
- Maintain and promote a positive culture towards PE and physical activity
- Further develop staff confidence and expertise
- Increase activity in competitive sports

## Intended Impact of the Pupil Premium / Sports Funding

- There is strong evidence that all children access a curriculum that is varied, and children participate in a range of physical exercise and games.
- Most pupils have positive attitudes towards physical activity, and they enjoy the daily physical challenges.
- Children receive at least a good standard teaching in PE and this is evident from monitoring teaching and learning.
- Specialist staff and coaches are used to ensure that children receive a better quality of education; staff learn how to teach PE from the modelling and demonstration of these coaches.
- School assessment shows that most pupils are working at age-related expectations in most year groups.
- The level of achievement in PE is good or better in Early Years and both Key Stage 1 and 2. Pupils make good progress from their starting points.
- Feedback from pupils shows improved attitudes towards sports and physical activity and in turn stronger mental health and well-being.
- Links with other local primary schools and secondary schools are very strong and participate in inter-school competitions and sporting events throughout the year. There is a good range of extracurricular sports clubs for pupils throughout school. This not only develops sporting ability and confidence but also develops social skills.
- This year the children competed in a range of events and competitions.
- The academy has also achieved the Gold School Games Award.

It is intended that the above actions will be sustainable over time as they focus on:

1. the engagement of all pupils in regular physical activity

2. raising the profile of PE and sport across the school as a tool for whole-school improvement
3. increased confidence, knowledge and skills of all staff in teaching PE and sport
4. broader experience of a range of sports and activities offered to all pupils
5. increased participation in competitive sport
